# Introduction

*THIS BROCHURE* has been compiled in response to the increasing appeal from our country friends for illustrations of **HIGHER-GRADE FURNITURE** than is contained in our General Catalogue.

As each article illustrated has been specially selected as being of special merit in regard - to construction, carefulness in detail, character of design, and perfection of finish, we have confined the reading matter under each illustration to a bare statement of dimensions, etc., omitting the customary superlatives in regard to quality and design.

We recommend these goods to discriminating clients, who recognise that dependable articles in modern design can be expected only at a reasonable cost, while at the same time we confidently assert that the prices we quote are the lowest at which these goods can be obtained in the State at present.

Being **MANUFACTURERS**, our prices carry one profit only, and we are in a position to guarantee that high standard of quality which our patrons have learnt to associate with the name of

## FLOOR COVERINGS

THE successful treatment of the coverings for the floors of a home demands a wider knowledge than the average person usually possesses.

Everyone with taste recognises an harmonious treatment, but of just how it can be achieved they have only a hazy idea.

That is the realm of the planners in our Floor Coverings Department. With the wide range of modern high grade materials at their command, whether English, American or Oriental, and their expert technical knowledge, they can assist you and give expression to your own ideas.

Therefore, write us if you would care to have their assistance with these problems. The response will be prompt and enthusiastic—samples will be sent when possible—and, while this service is entirely without cost to you, we find pleasure in giving it.
